Please Note:

The above are simply examples of our all inclusive package prices, however we can tailor a package to suit your specific requirements. If you wish to add a glass of port to accompany the cheese or a glass of desert wine to follow the sweet or simply substitute another wine, we can amend the price accordingly. The second & third packages have a larger selection of wines that fall in to the price bracket and it may be that you like the white from package 1 but the red from package 2, in this case we would simply meet in the middle and the package would be priced accordingly.

The above packages all include:

An option of both red or white wines.

A soft drink option of orange / apple juice for post ceremony and toasting purposes.

Complimentary squashes for children throughout the day.

All glassware required for the day from our standard range.

Premium Glassware is available but this is chargeable.

All staff costs.

We trust that this gives you all the information that you require, but feel free to contact us if we can be of any further assistance.

Yours sincerely,

Brendan

Brendan Shilling.
